Uncle Harold's Story-back

Your hands are full of groceries. How can you open the door by yourself?

Now open any door effortlessly with the push of a button. An optional lock can be activated with a button, too. Whether using the front door or garage entry, this hassle free door opening system will become your best friend. Like having someone hold the door every time you need help.

Rollin' Along can simplify your life, increase your personal safety and give you peace of mind. All at prices that beat nursing homes, assisted living, or selling your home and moving.

Stairlifts

Quiet
Easy to operate

Choose an affordable, elegant, and life enhancing **Stairlift** to make your Bay Area home's stairway safe.

Custom Fit

Our unique approach to your mobility ensures you get the exact fit for your particular home. Not some 'one size fits all' adaptation that causes heartaches and trouble.

We are so confident in our trained and certified technical team that we have the strongest warranty

in the industry- two full years- all parts and labor. Try to find that on some slick TV ad!

"Falls are the leading cause of fatal and non-fatal injuries for older Americans. Falls threaten seniors' safety and independence and generate enormous economic and personal costs." Source: NCOA website

Curved or Straight

No structural changes are required for your home to accommodate these lifts. The tight turn and narrow rails will keep your staircase free of obstruction. Your stairway is completely accessible to others!

Curved stairs are no problem for us!

Rollin' Along Call us at 510-984-6140
The Bay Area's Leader in Mobility Solutions

Outdoors, too!

Don't let stairs steal your independence. Rollin' Along can install weather resistant **Stairlifts** for outdoor use, too. From the street to the front door, or even access to that beautiful spot you love, like the picture here, there are solutions that give you freedom. Never be restricted again!

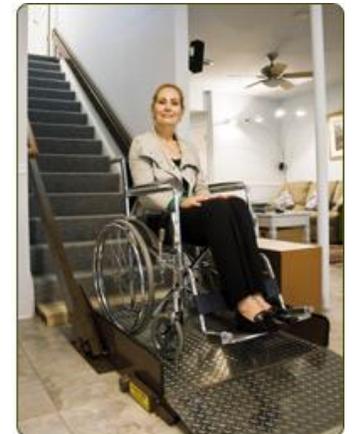

Enjoy your freedom!

"Falls account for 25% of all hospital admissions, and 40% of all nursing home admissions 40% of those admitted do not return to independent living; 25% die within a year." Source: learnnottofall.com

Stair Elevator

Stair Elevators can move you and your scooter, wheelchair/ power-chair between floors while still allowing the stairs to be used by others. Now **everyone** has unlimited access to the house! Measurements and installation by Rollin' Along makes sure it fits properly for years of guaranteed, trouble free operation.

Everyone can use the stairs!

Scooter Lifts

Going somewhere? Take your scooter, power chair or wheelchair with you! Maintain your independence and freedom. There are solutions to fit every need, budget, and size car!

The crane design picks up your mobility vehicle with a hook and line, like this picture to the right.

Crane type lifts are easy to use

The newest variety of lift, called a Hybrid lift, puts a platform out on the ground and then lifts and stows the mobility vehicle inside.

Chariot- Simple one person operation

Have a smaller car? The Chariot can be towed by almost any car. Unlike a trailer, it cannot be jackknifed so even backing up is simple. We have other solutions here, too. Just call and ask for a mobility specialist to give you a free evaluation.

All our solutions include a complete, at your home, installation. We will show you how to operate your lift safely and easily. And we are always just a phone call away!

Car manufacturers offer REBATES to help install lifts and other mobility equipment. Ask your auto dealer!

People Transfer Lifts

People Transfer Lifts, are designed to lift and transfer you or your loved one from one point to another, for example, out of a bed and into a chair. Lifting a person can be difficult and strenuous, not to mention *dangerous*, if not done correctly or carefully.

Safe, convenient and easy to use!

A *Transfer Lift* increases safety for both the patient and their caregivers by:

- *Reducing the work required of the caregiver.*
- *Taking the weight completely off the caregiver.*
- *Completely supporting the patient in the lift.*

Both free standing and overhead track installations ease the strain on everyone. Now you can move your loved one smoothly and effortlessly, transferring them to or from a bed, a wheelchair, or to the toilet — wherever you need to transfer.

No weightlifting required!

Rollin' Along helps you determine which one is right for you. Call today before someone gets hurt. And ask to hear what our long list of satisfied customers say! You'll be glad you did...

Ramps

Getting in and out of the house, or from one level to another, often means negotiating stairs. Stairs are difficult and dangerous, and when using a scooter, powerchair or wheel chair, stairs are impassable.

Independence regained!

Ramps allow you to bypass the steps and smoothly traverse from one level to the next, safely and easily. Ramps come in many sizes to fit a variety of situations. Rollin' Along will customize a wheelchair ramp to your needs, picking the right material and construction for your situation.

*Just a small threshold to overcome?
We have answers!*

Don't let stairs or thresholds be a barrier. Give us a call and let us show you how a long lasting, high-quality ramp can ease your way.

Platform Porch Lifts

What do you do when a ramp won't fit? For every inch up you must go, we need a foot of length. When a ramp gets too long, we offer a platform or porch lift.

A **platform porch lift** installs beside a permanent porch, stoop, or other platform and moves vertically between two levels. These units are compact and sturdy enough to lift people and wheelchair to heights up to 12 feet. They are just right for tight locations. It's like a personal elevator that can lift a wheelchair with an occupant and an attendant.

Move comfortably and safely

If you are unsure as to what type of lift will work for your situation, please give us a call. We are more than happy to consult with you and recommend what will best match your home, your needs, and your price.

Vehicle Access Assists

Simple and easy!

Turning, twisting and climbing! How hard can it be to get into my vehicle? Make it easy again by moving the seat out to you. A **Turning Automotive Seat** brings the seat out and down to make the transfer effortless. Rollin' Along's installations readily replaces an existing seat and makes it easy to get into your car again.

Turning Automotive Seats are available in manual and fully-powered models, and can be added to all types and brands of vehicles, including sedans, SUVs, wagons, crossovers, minivans, pickup trucks and full-size vans. *When you're ready for a new vehicle, your Turning Automotive Seat can come along with you, and your car can be returned to it's original state.*

Your seat is smoothly lifted and moved into place. And it fits any vehicle!

Rollin' Along offers a complete line that allows you to effortlessly enter and exit your vehicle.

Call today to discuss which model will work best for your needs, and to check compatibility with your vehicle.

Dumbwaiters for smart people

Like having "staff" carry the heavy loads!

Residential dumbwaiters (small elevators) make life easier and safer. They can connect between a garage and kitchen for easy transport of groceries. A dumbwaiter is similar to a small elevator for things, not people. They move items like bags or boxes that may be difficult to carry upstairs for any reason.

Installed into new or existing homes, a dumbwaiter keeps your hands free on steps, the most dangerous part of your home. They save you from multiple trips up and down, and is like having a personal staff to carry the load!

Various sizes of dumbwaiters can carry from 150 lbs up to 500 lbs, and as large as 30" x 30" x 30". Call Rollin' Along today for a quote to simplify your life with a professionally installed dumbwaiter solution!

Outside access blends perfectly with your home!

Others just talk, We **GUARANTEE** it!

Others may make promises, Rollin' Along puts it in writing. When you call, ask about these 'Nobody else does it' warranties:

Full 2 Year "NO ASTERISKS" Warranty

"Complete Peace of Mind" 5 year Warranty Option

*"As Clean as we arrived" **GUARANTEE***

"Tailored just for you" Service

Fast, friendly LOCAL Service

Weekend Emergency Service

Never Worry Recall Protection Plan

*One price **GUARANTEED** quote*

For more information on these 'You won't find them anywhere else' services, visit our website at www.RollinAlong.BIZ.

Or call to arrange an in-home evaluation and we'll be happy to explain each one!

Custom Built for a Lifetime

Another beautiful mobility solution being hand crafted for a Rollin' Along client!!

Unlike the 'seen on TV' ads that force a one size fits all product into your unique home, Rollin' Along ensures a custom fit for a lifetime of use. We even back up our products with the Industry's Strongest Warranty- all parts and labor, no exceptions, for **TWO FULL YEARS!** While some will warrant the motor, our product quality allows us to guarantee more than happiness. We guarantee you won't have to spend

a dime during the warranty period. Plus, you can extend our warranty service for a very reasonable fee.

Your new product is crafted to the highest industry standards, and installed by certified professionals who treat your home with respect. Our family operated business was built, and continues to grow, on long term relationships with our customers. We are so proud of our teams, we have a *Clean Installation Guarantee*:

Rollin' Along's "Clean Installation" Guarantee
If we leave a mess of any kind, we will hire a professional cleaning service to work until YOU are satisfied.

What other people say

"Three cheers: I can be mobile in my own home! Even more, I feel confident to call on you if I need help"

Cathryn B, San Francisco

"I don't know what I would have done without the lift"

Ralph F, Vallejo

"When you solved the problem, I felt a heavy anxiety lift off my shoulders"

Heath S, El Sobrante

"Although I bought mine earlier than I physically needed it, I find that I use it for carrying heavy loads upstairs and occasionally for myself"

Verne S, Dublin

"Every single morning I am so grateful that I can safely go up and down my stairway"

Jean K, Hayward

"I would recommend you to anyone, without reservations"

Barbara L. Greenbrae

"Have only had 2 occasions in 7 years to call for maintenance - service was quick!"

Lorraine D, Daly City

"All my family is so grateful that you have given them a sense of peace knowing their mother, grandmother and great-grandmother (me!) can stay in their own home without fear of falling on the stair, and continue to live a good life"

Jean K, Hayward

"I needed a lift to get my scooter in the car so I could get around better. Now I can go out more with less problems. It makes my trips back and forth easier"

Colleen M, San Francisco

"Rollin' Along was the only company that had a product to accommodate my needs and disability"

Polly H, San Leandro

"We needed a way to get my Dad out of the house for visits and outings. ...Installation was quick and done very neatly. Now I need it myself. Glad to have it!"

Lorraine D, Daly City

From the moment David and his wife rolled up to my doorstep I knew my mobility issues concerning the operation of my wheelchair lift were over.

Lynn M, San Jose

"We loved the prompt service and after hours service. David is very reliable and honest"

Paul and Sheryl M, Hayward

Harold and Olga
before his stroke

Why we care so much

Joan recalls...

"I was not yet in high school when my Uncle Harold; at the age of 50, had a major stroke which paralyzed his left side.

He spent the next 27 years, day after day, being moved from his bed in the morning to an overstuffed chair in the living room and back to his bed in the evening.

He missed both son's weddings, the birth of his 5 grandchildren, all the family celebrations and gatherings. His teeth rotted and fell out because he had no way to get to the dentist. He was stuck in that chair immobile day after day. When my aunt became too frail to care for him, he was placed in a nursing home and died eight months before my aunt.

No one needs to live like that.

Today, unlike in 1967, there are solutions that restore mobility, bring back respect, and help the individual, as well as those they love, enjoy life to the fullest."

I couldn't help Uncle Harold.
